

Smart Temporal Thermometer

Thermo is a game changer. This Wi-Fi connected temporal artery thermometer features a revolutionary 16-sensor array that requires no contact, and delivers the fastest, most precise temperature possible. Automatic sync with the dedicated app also allows you to track temperature readings, get reminders, and input related symptoms & medications for advice right on your smartphone.

Features

Clinical accuracy

Thermo measures from the temporal artery, considered the best place to detect temperature changes, as the blood that circulates there comes from the core of the body

HotSpot Sensor™ Technology

As Thermo sweeps across the forehead, 16 infrared sensors take over 4,000 measurements to find the hottest point

An exceedingly simple scan across the forehead requires no contact with the skin.

Thermo avoids any contact with saliva, earwax or other body fluids — making it the most sanitary way to take anyone's temperature.

Light vibration tells you when the reading is complete. Readings appear illuminated on the device along with a color-coded LED indicator to tell you if the temperature is normal, elevated or high based on the age of the user.

Thermo supports up to 8 users

Names will appear on the device, and once assigned, readings will appear in the correct profile inside the dedicated app

Measurements sync automatically with a dedicated smartphone app

In addition to tracking temperature and symptoms, users can enter comments, medications, and even photos in any user profile. This allows users to see if treatment is effective, and provides a complete history to share with health care providers

Medically accepted

Thermo has received clearance from the Food and Drug Administration (FDA) in the USA and is compliant with European medical device regulations

Technical Facts & Design

Available on iOS (iOS 8 and higher) and Android (5.0 and higher)

Includes a protective cap
Connectivity: Wi-Fi or Bluetooth®

Clinical accuracy: $\pm 0.2^{\circ}\text{C}$ ($\pm 0.4^{\circ}\text{F}$)

Temperature range: 35°C - 43.2°C
(95°F - 109.8°F)

Battery: 2x AAA batteries (already inserted)

Battery life: up to 2 years

Price & Availability

£89.95
