Cookies

If you navigate on withings.com and your browser settings accept cookies, we consider this as acceptance of our use of cookies.

What are cookies and how do they work?

Cookies are small files that are sent to and stored in your computer by the websites you visit. Cookies are stored in your browser's file directory. Next time you visit the site, your browser will read the cookie and relay the information back to the website or element that originally set the cookie. To learn more about these technologies and how they work, please see e.g. allaboutcookies.org.

Categories of cookies

We use cookie technology for various purposes, that can be sorted in these four categories:

- **Strictly necessary cookies:** These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies essential services, like shopping baskets or e-billing, cannot be provided.
- **Performance cookies:** These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages.
- **Functionality cookies:** These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features.
- **Advertising cookies:** These cookies are used to deliver adverts more relevant to you and your interests.

How can I manage cookies?

[Click here to personalize your cookie preferences on withings.com](#). The browser can be used to manage cookies relating to basic functions, site improvement, personalization and advertising. Different browsers use different ways to disable cookies, but they are usually found under a Tools or Options menu. You can also consult the browser's help menu. In addition to cookie management, browsers usually let you control files similar to cookies, for example Local Shared Objects, e.g. by enabling the browser's privacy mode. Withings uses third-party vendor-managed advertising cookies to promote its products both on withings.com and elsewhere on the web. You may be able to opt-out from certain third party managed advertising cookies through third party cookie management sites.

Disabling cookies altogether may affect your experience on withings.com.

How long do we keep the information?

It depends based on the type of cookies. Session cookies expire when you close the browser. Persistent cookies, including Local Shared Objects ("Flash cookies"), have typical expiration dates ranging from two (2) to thirteen (13) months.

If you have additional questions, please contact us by writing to: legal@withings.com

List of cookies
